

StarBoard FX-TRIO-77S

INTERACTIVE WHITEBOARD

Inspiring Unlimited Potential

Discover the new FX-TRIO-77S interactive whiteboard - an exceptional tool, associating the robustness of an ordinary whiteboard with latest multi-touch technology. Connect the FX-TRIO to a computer and LCD projector and control all PC operations directly through its optimised 77 inch interactive screen. Successor of the previous StarBoard models, this board offers more advanced features and flexibility of use.

Touch and Control

All operations on the board can be performed with a finger, stylus pen or an electronic pen, depending on your preference.

Multi-Touch Features

Operate the board by using hands gestures to zoom or scroll the pages and images.

Optimised Robust Surface

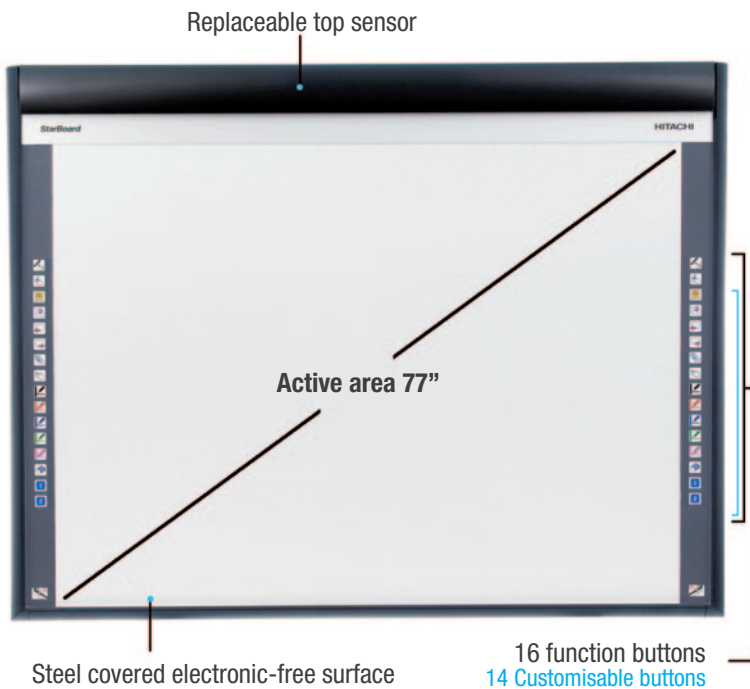

The steel coating on the surface allows it to be used as a normal whiteboard without limitations – attach magnets to the board's surface or write with markers without any risk of damage to the interactive features.

Interactive Group Work

Engage your audience in the work sessions. Thanks to the multi-user feature, up to three users can operate the board simultaneously and work in a team on the same task.

Key features

- Steel covered surface allows to use FX-TRIO-77S as a normal whiteboard
- Possibility to deactivate the finger mode for full control on the board with electronic pen
- Interactive group work up to three users
- Multi-touch features for intuitive use - scroll/ zoom-in/ zoom-out and other
- Electronic-free surface means no risk to damage interactive features even if there are scratches/dents on the surface
- Field replaceable digitiser
- Low-reflection surface coating minimises the projector reflection
- 16 function buttons, 14 of them are customisable for easy use
- Improved bracket design makes the board easy to mount
- Multiple input methods - finger, stylus or an electronic pen
- Wireless electronic pen includes three side buttons for whole mouse operations
